MS-NG01
NITRILE EXAMINATION GLOVES

MS-NG01

NITRILE EXAMINATION GLOVES

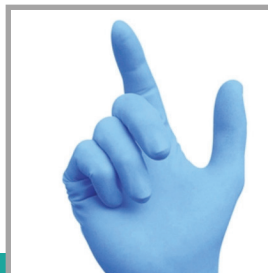

OVERVIEW

Designed with high-quality nitrile, MS-NG01 nitrile examination gloves protect the wearer's hands from liquid sprays, bodily fluids, splashes, and potential contamination from harmful pathogens. Made to feel and fit like latex, they are extremely flexible and comfortable to wear, allowing full range of motion to minimize fatigue. Further, they are available in a wide range of colors and various sizes to fit and provide a stress-free wearing experience.

100% LATEX-FREE GLOVES

100% latex-free, made from durable, puncture resistant, protein and powder-free nitrile

TEXTURED FINGER TIPS

Textured in finger tips for enhanced grip and comfort in all situations
